## **IBEW 2026 | Come with someone. Get more from it.**

IBEW is more useful when you don't experience it alone.

When you attend with colleagues or industry peers, conversations don't stop at the session room — they continue over coffee, lunch, and the journey back.

And that's usually where the real value comes in: comparing what you heard, challenging ideas, and making sense of it together.

With parallel sessions running across our 2026 programme, attending together means you can unpack the insights on the spot, challenge ideas in real time, and leave with a shared perspective:

## Digital & AI Transformation

Benchmark your digital workflows and explore how peer organisations are deploying AI in real-world scenarios together.

## Green Mark v7

Deep dive into decarbonisation strategies and learn about the regional adoption of low-carbon materials side by side to meet evolving standards.

## Operational Excellence

Upskill together on the latest industry competencies and workforce transformation trends.

## Architecture, Design & FM

Align your understanding of modern asset optimisation and resilient building practices.

## Know someone who should be here?

If there's someone you've been thinking of bringing along — or someone who should probably be in the room — forward this to them.

The best conversations often start after the session ends.
