SGBC LUNCH AND LEARN

SGBC Lunch and Learn with ESGpedia: Kickstarting Sustainability Reporting and Building a Green Edge for Tenders

Monday, 31 August 2026 | 12:00PM - 2:00PM | In-Person Event

Sustainability is fast becoming a core requirement across tenders, procurement, and asset management. At this SGBC Lunch and Learn, SGBC Member ESGpedia will walk you through real-world use cases, featuring leading built environment companies, including Integrated Precast Solutions, China Construction Development Co, Hwa Seng Builder and more. These companies have successfully leveraged digital sustainability tools to cut through the complexity of sustainability reporting, embodied carbon calculations, Life Cycle Assessments (LCAs) and Environmental Product Declarations (EPDs) – winning more tenders, unlocking new business opportunities, and sharpening their competitive edge.

Participants will also take part in a one-hour hands-on workshop, where you will learn how to generate your own sustainability report and translate your data and sustainability

initiatives into clear, credible disclosures for customers, investors, and tender submissions.

Leave with practical, actionable steps on how to:

- Generate audit-ready sustainability reports to meet client and tender requirements
- Calculate and track project-level embodied carbon with real-time dashboards and analytics
- Explore sustainable finance pathways with better financing options
- Conduct LCAs and obtain EPDs to position yourself as a preferred green procurement partner

Please note that your email address will be shared with ESGpedia for the purpose of creating a demo account to be used during the session. By registering for this event, you consent to your email address being shared with ESGpedia for this purpose.
