Connect, Learn and Engage at the ebm-papst Theatre

As a Gold Sponsor of IBEW 2026, **ebm-papst** welcomes you to the **ebm-papst Theatre**, where industry leaders, policymakers and innovators come together to exchange perspectives on the trends, challenges and opportunities shaping the future of the built environment.

Recognised globally for its expertise in air movement and cooling technologies, **ebm-papst** develops intelligent, energy-efficient solutions that support sustainable buildings, resilient infrastructure and high-performance data centre operations. Through continuous innovation and digitalisation, the company is helping organisations navigate evolving demands in an increasingly connected world.

Featured Session

Breakout C.2: Optimising Data Centre Cooling Strategies for an AI-Driven Future

As AI, cloud computing and growing data demand place increasing pressure on data centre operations, cooling strategies must evolve to support higher performance without compromising energy efficiency, reliability or sustainability.

Join **Thomas Schwab**, Managing Director, **ebm-papst SEA Pte. Ltd.**, Vice President Digital Services and Solutions APAC & MEA Air Technology APAC, as he explores how intelligent and connected cooling approaches are helping operators optimise performance across the entire cooling ecosystem.

Key discussion points:

- System-wide cooling optimisation strategies
- Using operational insights to improve cooling performance
- Reducing energy consumption and improving PUE
- Enhancing resilience in AI-ready data centres

 **Friday, 4 September 2026**
