

Geo Connect Asia 2027

Geo Connect Asia 2027 returns to Singapore for its 7th annual edition on **Wednesday 17th & Thursday 18th March** at **Sands Expo & Convention Centre, Singapore**.

Under the theme *Geospatial driven impacts: underground, land & sea to sky*, the event brings together the geospatial and location intelligence communities to explore how reliable data, applied technologies and location-based knowledge are supporting decision-making across government, defence, enterprise and end-user markets.

The 2027 edition offers an expanded show and conference programme including the Multi-GNSS Asia Conference, Digital Underground Connect, Geo Smart Mining Forum, Indoor Mapping Forum and the Geo Intelligence CXO Forum. Across conferences, Tech Talks and deep-dive sessions, Geo Connect Asia offers a focused meeting point for professionals addressing opportunities offered by the crossover between the growing strategic stature of the geospatial industry with AI, robotics, uncrewed and autonomous applications.

Digital Construction Asia 2027

Digital Construction Asia 2027 takes place on **Wednesday 17th & Thursday 18th March** at **Sands Expo & Convention Centre, Singapore** and will be co-located with Geo Connect Asia, the region's leading geospatial and location intelligence event

Under the theme *Delivering intelligent solutions for the built environment*, the 3rd annual edition of Digital Construction Asia will focus on the technologies reshaping construction, infrastructure, design and operations across Asia. The event brings together government agencies, regulators, developers, contractors, consultants, technology providers and asset owners to examine the practical application of AI, robotics, autonomy, BIM-based solutions, digital twins, cloud-based platforms, sensors, IoT and data visualisation.

For 2027, Digital Construction Asia will feature full day Summits, respectively titled *Robots in Construction* and *AI for Construction*, a dedicated exhibition area, an extended hosted buyer programme and Tech Talk programme, supported by a dedicated matchmaking platform to support targeted business conversations.
