SGBC Event

SGBC Seminar: Designing for Health and Climate

2:30PM to 5:00PM | 18 September 2026 | In-Person CPD Event

Indoor environmental quality has become a defining consideration in the design and operation of sustainable buildings. In Singapore's hot-humid

Event Details

Date: Fri, 18 Sep 2026

Time: 2:30 PM – 5:00 PM

Venue: i-Node, Block D,
Level 2, BCA Braddell

climate, maintaining healthy indoor environments while optimising cooling performance requires a balanced approach that considers not only HVAC systems but also the building envelope and the materials that shape indoor spaces. As Singapore pushes towards its "80-80-80 in 2030" decarbonisation targets, building owners, developers, and design professionals are increasingly seeking integrated solutions that enhance both indoor environmental quality and operational performance.

This SGBC Seminar, supported by SGBC Member Knauf Insulation Singapore Pte Ltd, brings together industry experts to examine how building design in tropical climates can support healthier, more comfortable and energy-efficient indoor environments. Knauf Insulation will delve into the critical role of the thermal envelope in reducing heat gain and cooling demand, the impact of material selection on indoor air quality, and the importance of balancing insulation, airtightness, ventilation and dehumidification to deliver high-performing buildings suited to Singapore's climate. GreenA Consultants will explore these principles through real-world case studies of some of Singapore's most innovative green buildings, demonstrating how integrated design can deliver measurable outcomes for both energy performance and occupant health.

Campus, 200 Braddell Road, Singapore 579700

Fees (Incl. GST)

SGBC Member: \$50

GMPs: \$50

Non-Member: \$80

CPD Points

SGBC-GMP: Pending

APFM: Pending

PEB: Pending

SCEM: Pending

SCAL-CPAS: Pending

SIFMA-CFME: Pending

Seminar Programme

2:15 PM **Arrival & Registration**

2:30 PM **Introduction by SGBC**

2:40 PM **Designing Healthy Buildings in Hot-Humid Climates:
Material Selection and Thermal Envelope Strategies for Healthier Indoor Environments**
Mr. Stephen Smith, Technical Director (Asia Pacific), Knauf Insulation

3:40 PM **Designing for High-Performance Outcomes**
Ms. Farizan d'Avezac de Moran, Senior Partner, GreenA Consultants Pte Ltd

4:10 PM **Q&A Panel**

4:30 PM **Networking Tea Break**

5:00 PM **End of Event**

IMPORTANT NOTE

As the event's details and other pertinent information will be sent directly to the participant via email, please ensure that the email address used for registration is valid and active. If you are registering on behalf of a participant, please use their name and contact details for registration. For multiple participants from the same organisation, please register each participant individually. SGBC reserves the right to amend the Programme without prior notice.

SGBC reserves the right to allocate registrations to ensure a well-balanced representation of professions at each event for the best learning outcomes. Professional CPD points will only be awarded after verification of in-person attendance and full payment of event fees, which must be received at least three days before the event.
