

To:  
Chairmen / Presidents of Associations  
Executive Directors of Association

On a monthly basis, Enterprise Singapore invites comments on Singapore Standards from the public to seek feedback on the development of Singapore Standards. These Singapore Standards are based on an open system and the principle of consensus which are in accordance with the WTO & international standardisation requirements.

We wish to invite comments from your association on the standards that are relevant to you:

| Title of Standard                                                                                                                                                                                             | Type       | Closing date     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|------------------|
| Cosmetics – Analytical methods – Nitrosamines: Detection and determination of N-nitrosodiethanolamine (NDELA) in cosmetics by HPLC-MS-MS (SS ISO 15819:2017(2024))                                            | Withdrawal | 5 November 2026  |
| Cosmetics – Analytical methods – Nitrosamines: Detection and determination of N-nitrosodiethanolamine (NDELA) in cosmetics by HPLC, post-column photolysis and derivatization (SS ISO 10130:2017(2024))       | Withdrawal | 5 November 2026  |
| Cosmetics – Analytical methods – Validation criteria for analytical results using chromatographic techniques (SS ISO 12787:2017(2024))                                                                        | Withdrawal | 5 November 2026  |
| Cosmetics – Guidelines on technical definitions and criteria for natural and organic cosmetic ingredients and products (Part 1 and 2)                                                                         | Withdrawal | 5 November 2026  |
| Cosmetics – Microbiology – Guidelines for the risk assessment and identification of microbiologically low-risk products (SS ISO 29621:2017(2024))                                                             | Withdrawal | 5 November 2026  |
| Cosmetics – Microbiology – Evaluation of the antimicrobial protection of a cosmetic product (SS ISO 11930:2023)                                                                                               | Withdrawal | 5 November 2026  |
| Cosmetics – Determination of sunscreen UVA photoprotection in vitro (SS ISO 24443:2023)                                                                                                                       | Withdrawal | 5 November 2026  |
| Cosmetics – Sun protection test methods – in vivo determination of sunscreen UVA protection (SS ISO 24442:2023)                                                                                               | Withdrawal | 5 November 2026  |
| Cosmetics – Microbiology – Testing of impregnated or coated wipes and masks (SS ISO 21322:2020)                                                                                                               | Withdrawal | 5 November 2026  |
| Geotechnical investigation and testing – Geohydraulic testing (Part 1, 2, 3, 4 and 6)                                                                                                                         | New        | 12 November 2026 |
| Geotechnical investigation and testing – Sampling methods and groundwater measurements – Part 1: Technical principles for the sampling of soil, rock and groundwater (Identical adoption of ISO 22475-1:2021) | New        | 12 November 2026 |
| Geotechnical investigation and testing – Field testing (Part 1, 3, 4, 5, 9 and 11)                                                                                                                            | New        | 12 November 2026 |
| Amendment No. 2 to Code of practice for bunker mass flow metering – Part 2: Technical requirements and procedures (SS 648-2:2024+C1:2025+A1:2026)                                                             | Amendment  | 5 November 2026  |

|                                                                                                                                                                           |               |                 |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|-----------------|
| Code of practice for maintenance of electrical equipment of electrical installations (Revision of SS 538:2008) (Part 1 and 2)                                             | Revision      | 5 November 2026 |
| HACCP-based food safety management systems – Requirements for any organisations in the food chain (Revision of SS 590:2013)                                               | Revision      | 5 November 2026 |
| Hygiene requirements for automated dishwashing (Review of TR 60:2017) (Modified adoption of DIN SPEC 10534)                                                               | Revision      | 5 November 2026 |
| Conformity assessment – Requirements for bodies performing inspection (Revision of SS ISO/IEC 17020:2017) (Identical adoption of ISO/IEC 17020:2026)                      | Revision      | 5 November 2026 |
| Conformity assessment – General requirements for bodies operating certification of persons (Revision of SS ISO/IEC 17024:2017) (Identical adoption of ISO/IEC 17024:2026) | Revision      | 5 November 2026 |
| Technical Reference – Solid state transformers – Product requirements for medium voltage (MV) AC to low voltage (LV) DC conversion                                        | New work item | 5 October 2026  |
| Technical Reference – Code of practice for rice warehousing and storage                                                                                                   | New work item | 5 October 2026  |
| Technical Reference – Code of practice for security logging and log source prioritisation                                                                                 | New work item | 5 October 2026  |
| Code of practice for the safety of sport equipment                                                                                                                        | New work item | 5 October 2026  |
| Quality management systems – Requirements (Revision of SS ISO 9001:2015(2023)+A1:2024) (Identical adoption of ISO 9001:2026)                                              | Review        | 5 October 2026  |

\*NOTE – Details of the Singapore Standards for public comment can be found in the attached notice. Users can login at the [Singapore Standards eShop](#) and view the drafts and standards during the public comment period.

Your comments will be taken into consideration before the standards are finalised.

We would appreciate it if you could inform your staff.

You may wish to sign up for e-alerts ([click here](#)) to receive notifications on standards for public comment and/or information on new / revised standards and sale promotions from our appointed vendor, Toppan Next.

Thank you and have a great day!

On behalf of:

Chiu Ya Ting (Ms)  
Deputy Director (Manufacturing and Standards Publication)  
Standards Division
