Featured Speakers

***Mass Timber Buildings in Fire:
Unique Structural Behaviour,
Collapse Risk, and Design Solutions***

Mr Martin Feeney

Principal and Senior Fire Engineer
Holmes

***Stopping Thermal Runway: Latest
Technologies and Materials Design for
Enhancing Firefighter Response***

Dr Leong Yew Wei

Founder, CEO
Matwerkz Technologies

***Fire Resilience in High Rise Green
Infrastructure: Evaluating the Fire
Dynamics and Risk Mitigation of
High Rise Sustainable Buildings***

Professor Hu Longhua

Deputy Director of the State Key
Laboratory of Fire Science (SKLFS)
University of Science and Technology of China

***Fire Safety in Sustainable Buildings:
Bridging Design, Testing, and Emerging Risks***

Professor William E. Koffel

Clinical Associate Professor and the
Director of the Undergraduate Fire
Protection Engineering Online Program
University of Maryland

...and more!

This year, the fifth edition of the Fire Safety Asia Conference (FiSAC) returns alongside The Singapore-International Disaster & Emergency Management Expo - Asian Conference on Disaster Reduction (SIDEX-ACDR).

This 3-in-1 event is poised to be the premier platform for Fire, Rescue, Emergency Medical Services, Disaster Management and Emergency Response Professionals to exchange expertise, foster collaboration, and fortify exhibitors' brands with esteemed professionals in the field of disaster management and emergency response.

FiSAC 2026 Highlights

2-day conference featuring presentations by **14** distinguished local and international speakers on Emerging Fire Risks, the Future of Fire Safety & Sustainable Eco Design, and Digital Transformation in Fire Safety & Response

Interactive half-day workshops by **A-CERTS, FSMAS and IFES** on fire safety topics
