Experience the Full SIEW Summit Across 2 Days

The SIEW Summit 2-Day Pass brings together two distinct but connected days of high-level dialogue — from strategic industry conversations on 26 October to three international forums on 27 October. Across both days, hear perspectives from policymakers, industry leaders, international organisations, regulators, investors and experts on the priorities shaping the energy landscape.

DAY 1 – THE STRATEGIC CONVERSATIONS SHAPING ENERGY

On 26 October, the [SIEW Summit](#) brings together senior leaders from across the energy ecosystem to discuss the priorities shaping tomorrow's energy systems.

Connecting The Energy Systems of Tomorrow

Explore how stronger cross-border coordination, grid integration and system connectivity can support a more secure and connected energy future.

Energy Security and the Future of Gas

Examine the evolving role of LNG, biomethane and hydrogen-ready fuels in strengthening energy security and supporting the energy transition.

Technology For Resilient Energy Systems

Hear how AI, digital grids, advanced nuclear, hydrogen and carbon capture are reshaping the resilience of future energy systems.

The Grid of Tomorrow

Discover how next-generation grid technologies and digitalisation can enable greater interconnectivity, flexibility and system coordination.

Financing Tomorrow's Energy World

Explore how innovative financing, risk mitigation and sustainable finance can unlock investment for the next phase of the energy transition.

Your 2-Day SIEW Summit Pass continues on 27 October with three high-level forums featuring the International Energy Agency (IEA), International Renewable Energy Agency (IRENA) and International Atomic Energy Agency (IAEA).

SINGAPORE-IEA FORUM

Securing Tomorrow's Energy Through Connected Systems

How can connected systems support a more secure and resilient energy future? Explore the evolving role of LNG and gas, alongside the next phase of electricity security and the ASEAN Power Grid.

- **Securing Tomorrow's Energy Through Connected Systems**
- **Strengthening Electricity Security through the ASEAN Power Grid**

SINGAPORE-IRENA HIGH-LEVEL FORUM

Connecting Investments for an Interconnected Energy Future

What will it take to mobilise the investment needed for a faster energy transition? Hear perspectives on renewable energy development, financing and scaling clean energy deployment.

- **Enabling Investment for the Energy Transition**
- **From Projects to Capital — Unlocking Finance for Renewable Energy Projects**
- **Connecting the Systems: Financing the Grids and Infrastructure and Greening Industries That Power Tomorrow**
