Prefab MEP, Vertical Transportation, &
Fire Protection Systems Inspection
(Module 1 of 3) - Run 2

THINK HY PERFORMANCE

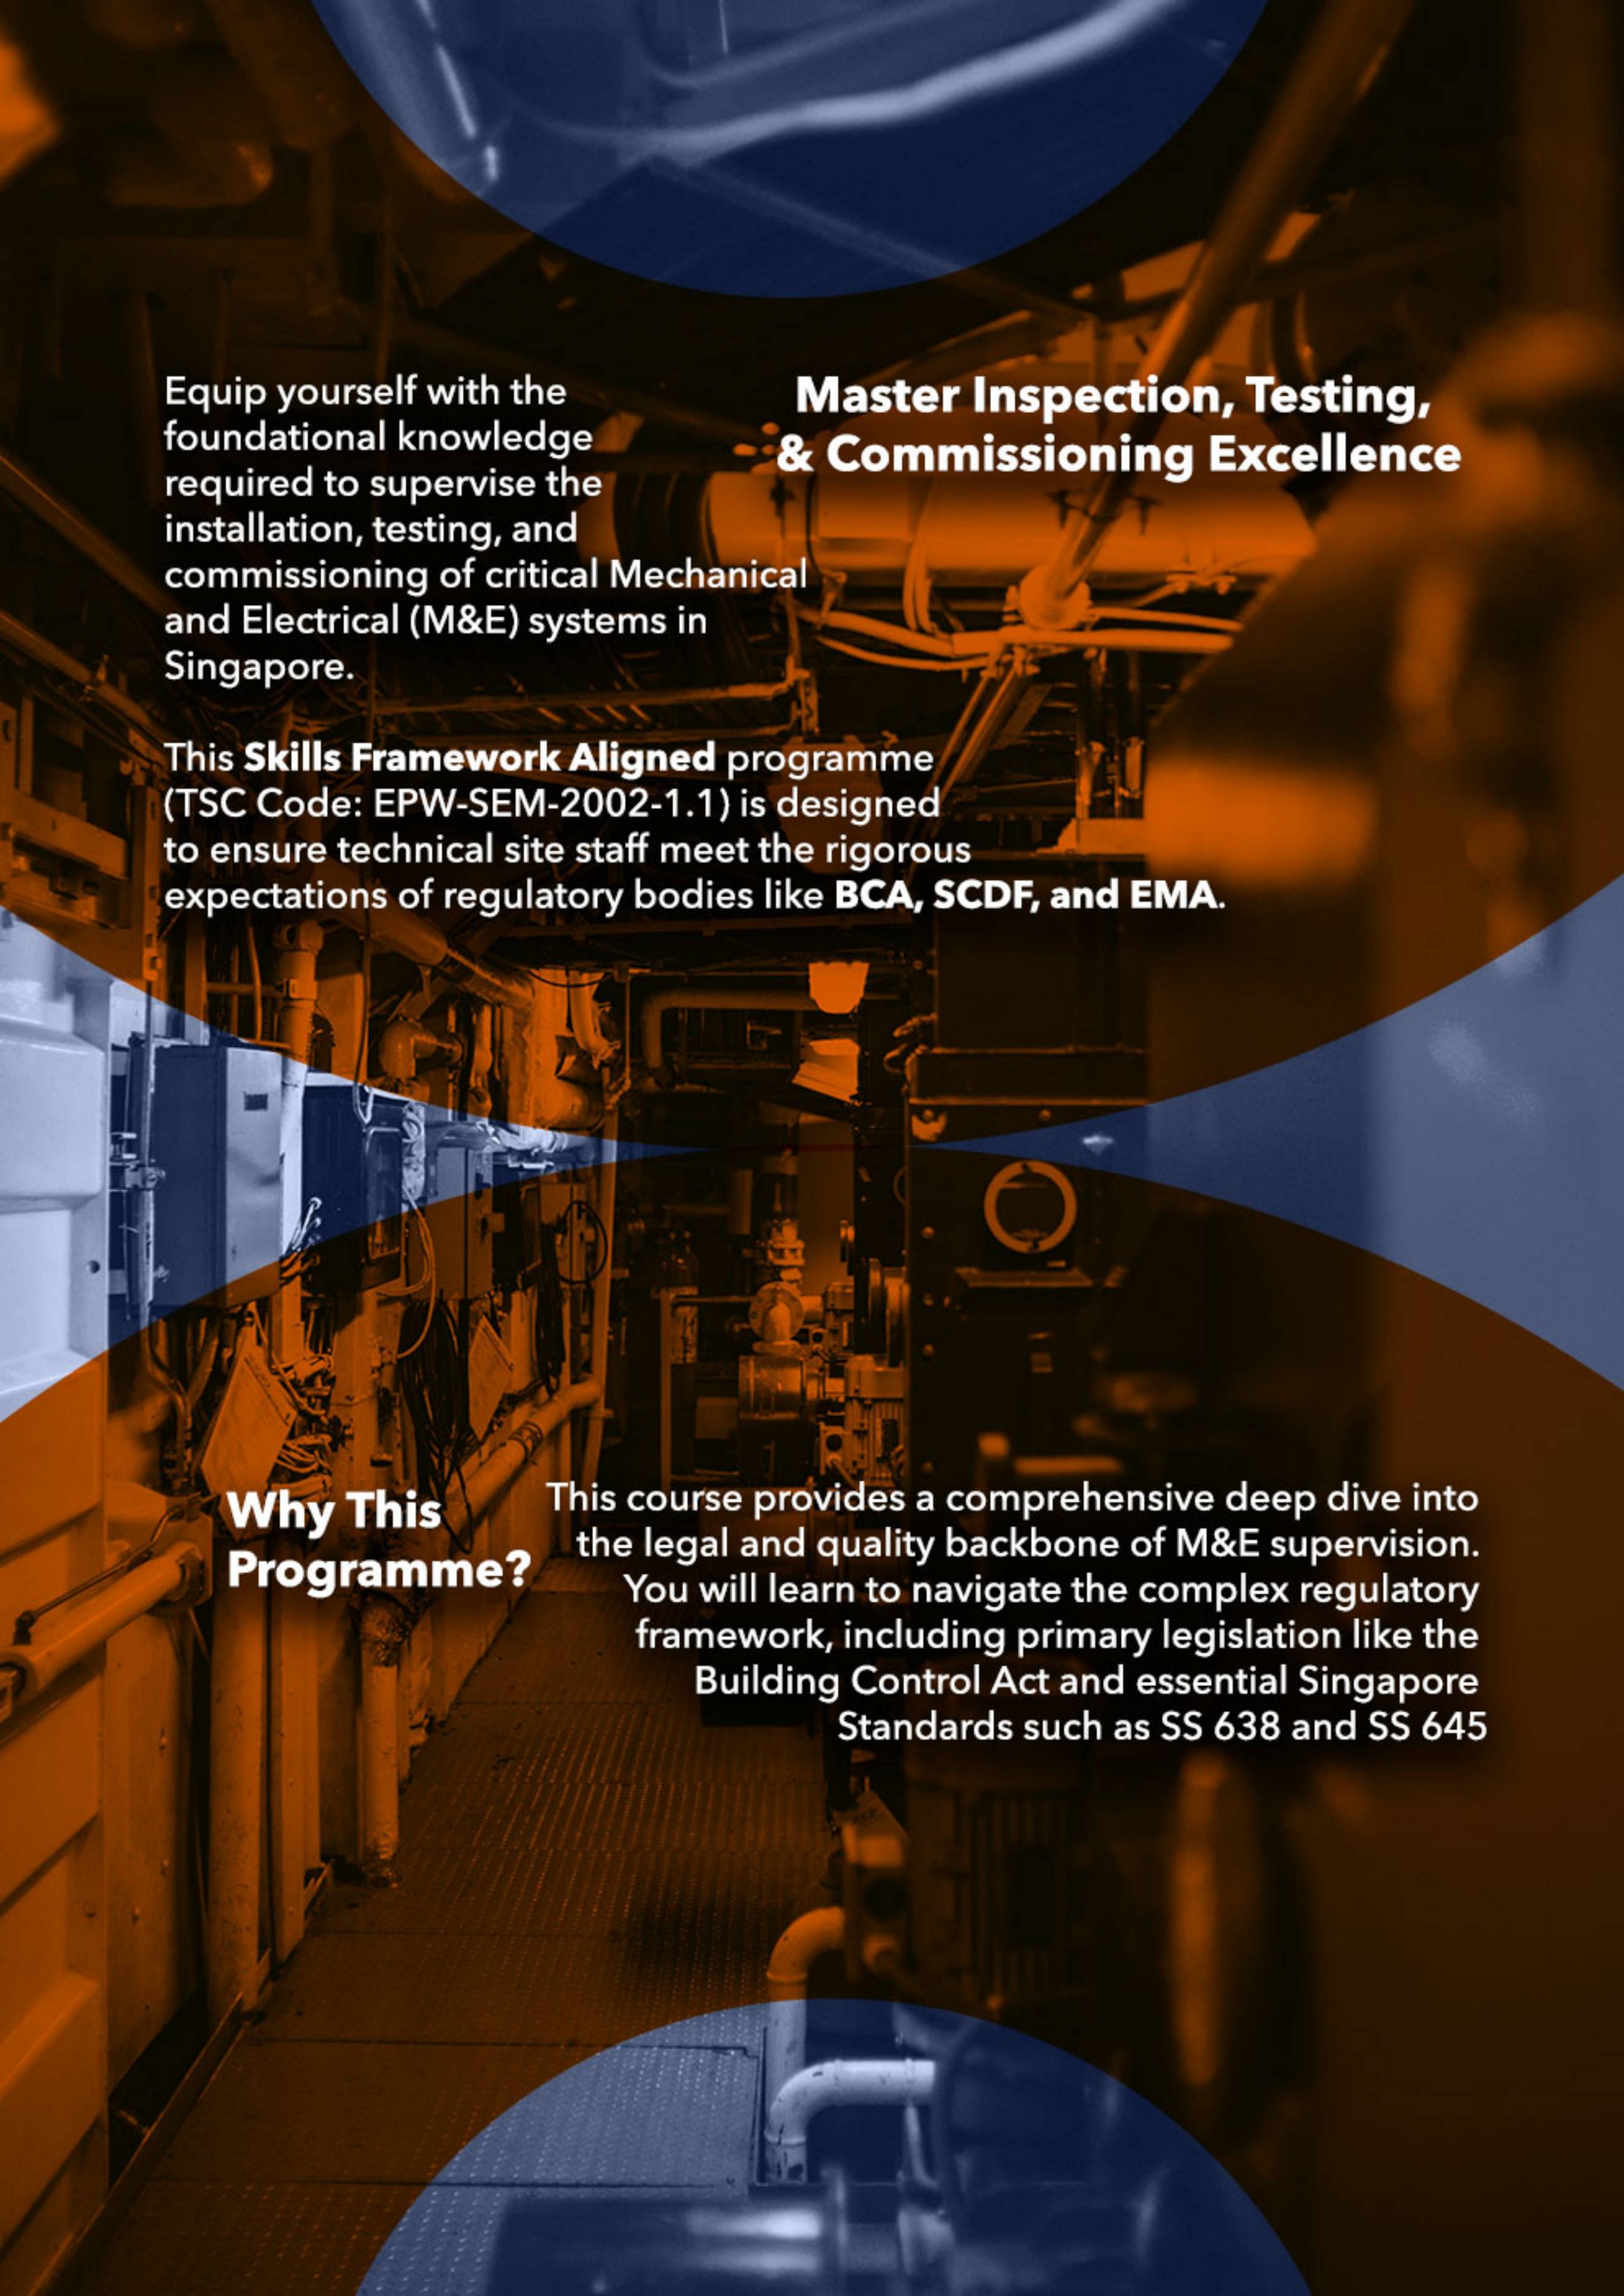

HYPE
Lifelong Learning, HYPed for Success

With programme partners

Professional Development Credits:

- STU (M&E): 21 Units Approved (IES-ACES JAC)
- PDU: 21 Units Approved (PEB)

Equip yourself with the foundational knowledge required to supervise the installation, testing, and commissioning of critical Mechanical and Electrical (M&E) systems in Singapore.

Master Inspection, Testing, & Commissioning Excellence

This **Skills Framework Aligned** programme (TSC Code: EPW-SEM-2002-1.1) is designed to ensure technical site staff meet the rigorous expectations of regulatory bodies like **BCA, SCDF, and EMA**.

Why This Programme?

This course provides a comprehensive deep dive into the legal and quality backbone of M&E supervision. You will learn to navigate the complex regulatory framework, including primary legislation like the Building Control Act and essential Singapore Standards such as SS 638 and SS 645

What you'll learn

Site Roles and SOPs:

Master essential documentation, including Daily Site Diaries, Requests for Inspection (RFI), and Non-Conformance Reports (NCR)

Electrical Installation Inspection:

Develop the capability to inspect HT switchgear, transformers, main switchboards, and cabling under SS 638

Water-Based Fire Protection:

Apply commissioning parameters for hydrants, risers, and sprinklers per SCDF Fire Code requirements

Fire Detection and DECAM:

Carry out end-to-end testing of alarm systems and Direct Emergency Call Alarm Monitoring (DECAM) systems

Who Should Attend?

This programme is specifically tailored for Resident Technical Officers (RTOs), Resident Engineers (REs), aspiring site supervisors, and facilities staff seeking to enhance their technical competency and career profile.

Professional Recognition

Successful completion supports your career progression and alignment with the IES/ACES M&E RE/RTO Registry

The programme also helps registered professionals stay current on evolving codes and Continuing Professional Development (CPD) obligations.

Course Schedule

2nd, 3rd & 4th Dec 2026

Full Duration: Up to 24 hours

Level

WSQ Level 2

Venue

HY M&E
Consultancy Services
Training Facility

Open-Book Assessment

Reference materials
are permitted during
the final evaluation

PRICE
SGD 960

**Join HY Academy to ensure
your M&E projects are
audit-ready and compliant
from day one.**
