Scaling EV Charging for Greener Cities at SUMW 2026

Dear Industry Partner,

How can cities build EV charging networks that keep pace with growing demand while balancing grid capacity, reliability and commercial viability?

At **Singapore Urban Mobility Week (SUMW) 2026**, taking place from **4–6 November 2026 at Suntec Singapore Convention & Exhibition Centre**, join infrastructure providers, technology leaders and researchers to explore the next phase of EV charging.

From high-power charging to data-driven network planning, discover practical approaches to building reliable, scalable and energy-efficient charging ecosystems.

Explore the infrastructure and technologies powering the EV transition.

Explore Conference Agenda

Industry Forums I Sustainable and Green Transport

5–6 November 2026 I Suntec Singapore Convention & Exhibition Centre

Building the Future of EC Charging: Infrastructure, Technology and Energy Optimisation

Explore how cities can build reliable, scalable and energy-efficient EV charging networks. Industry experts will share insights into balancing user demand, grid capacity and commercial viability to plan and operate sustainable charging ecosystems at scale.

Why Join Industry Forums?

- Gain practical insights from transport authorities, operators and industry leaders
- Learn from real-world deployments and international case studies
- Discover emerging technologies and solutions shaping the future of urban mobility
- Earn Professional Development Units (PDUs)

WEEK

SUMW 2026 • INDUSTRY FORUMS

Meet the Moderator and Speakers

Sustainable and Green Transport

Building the Future of EV Charging:
Infrastructure, Technology and Energy Optimisation

David Tan

Acting Director (Strategic Planning)
EV-Electric (EVe) Charging Pte Ltd

MODERATOR

Alice Chou

Vice President, Asia Pacific
Gresying Digital Technology Co., Ltd.

SPEAKER

Muhamad Azfar Ramli

Deputy Department Director
Institute of High Performance Computing,
A*STAR Research Entities

SPEAKER

Xiang Kouki

President of APAC Region
StarCharge Energy APAC

SPEAKER

Gain insights into planning and operating charging networks at scale, integrating emerging technologies and optimising energy use. Explore how data-driven decisions can support reliable infrastructure, commercial viability and the wider adoption of electric mobility.

Connect with the experts shaping the future of EV charging.

Explore New Technologies Shaping Urban Mobility at SUMW

Discover innovations from **over 300 leading exhibitors** across AI, autonomous mobility, IoT, public transport, rail, smart infrastructure, sustainable solutions and workforce transformation.

Explore live showcases, connect with industry experts and discover solutions transforming how cities and communities move.
