

Dear Members,

The SIA Young Architects League (SIA-YAL) is calling for interested individuals to join us as mentors for the 2027–2028 SIA-YAL Mentorship Programme.

As the programme enters its seventh edition, it continues to foster connections between experienced practitioners and the next generation of architects, graduates and students. Through open conversations, shared experiences and practical guidance, mentors can help mentees navigate their professional journeys with greater confidence and purpose.

Your experience can make a real difference. Beyond sharing what you have learnt along the way, mentorship is an opportunity to offer a fresh perspective, encourage new ways of thinking and support a young person as they find their own path within the profession.

More details on mentor and mentee expectations will be shared in the coming weeks.

If you would like to become a mentor, we would love to hear from you. Please sign up using the link below:

<https://forms.gle/pq1mBwxYbQKu8iPn8>

You've helped shape projects. Now, you can help shape the next generation of architects, inspiring them to design boldly, think differently and make their mark on the profession.

If you know someone in the architectural community who would make a great mentor, please feel free to share the sign-up link with them as well.

If you have any queries, please contact youth@sia.org.sg.
