CENTRE FOR EMERGING OSHE TRENDS

(ONLINE WORKSHOP)
From Heat to Floods: Building Climate-Ready Workplaces

Date: 19 November
Time: 1:00 PM - 5:00 PM (GMT +8)

ONLY 1 WEEK LEFT: The Climate Is Changing. Is Your Workplace Ready?

Dear ,

Climate risks are no longer distant possibilities or challenges that organisations can afford to address only when an incident occurs.

Extreme heat, lightning strikes, flash floods, water ingress and deteriorating air quality are already **creating new and increasingly complex risks across workplaces**.

For safety professionals and organisational leaders, the question is no longer whether these hazards will affect our workplaces, but **whether we have the knowledge, systems and preparedness to protect our people?**

Learn Directly from Renowned OSH Experts

Earn CPD Points While Advancing Your Expertise

By participating in this workshop, you will receive:

- **1.5 FM CPD points approved by SIFMA**

- **2 SDU points approved by SISO**
- **4 PDU points approved by PEB**

Secure Your Place Before Registration Closes

Climate resilience requires more than awareness. It requires the ability to recognise emerging hazards, understand their impact and translate knowledge into effective workplace protection.
