Greetings from the Ministry of Education's Education and Career Guidance (ECG) Branch!

We previously had the pleasure of connecting with you about ECG Match. Following Minister Desmond Lee's announcement on 11 November, we are excited to share that the launch has been met with widespread media attention. Whether you have already joined us or are still considering, we hope this inspires you to be part of this growing national effort.

- **ECG Match has been featured in The Straits Times here.**
- **Watch CNA's feature, *Singapore students to get more career exposure through new MOE platform,* here.**
- **For more details, read our official MOE press release here.**

ECG Match is a digital platform that connects schools with individuals and organisations to provide primary, secondary and pre-university students meaningful exposure to the World of Work. This platform "democratises access" to industry professionals, supporting all schools with access to a diverse range of industry partners, as highlighted by Ms Liew Wei Li, MOE's Director-General of Education.

As an ECG partner, your career story and the learning experiences you offer can give students a glimpse into the World of Work that no textbook can provide. Your involvement does not require a large commitment. A one-hour career sharing session, a short virtual chat with a class, or a workplace learning journey are equally valued contributions that can leave a lasting impression on a young person exploring their future pathways.

We invite you to sign up at https://go.gov.sg/moeecgpartners. If you are already an MOE ECG partner, do share this opportunity with your networks.

Feel free to reach out to us at moe_ecg_partners@moe.gov.sg if you have any questions.

Best regards,

Education and Career Guidance Branch • Student Development Curriculum Division 1

Ministry of Education • 51 Grange Road, Singapore 249564 • http://www.moe.gov.sg
