Bridge or Destination? LNG & Hydrogen in the Energy Transition

The rising prominence of sustainability on the global agenda has led to a greater impetus to decarbonise our energy systems. As the energy landscape evolves in line with this greater focus on greener growth, what role do these crucial energy sources play in the future energy mix, as the commodity markets and the global community look to limit carbon emissions and combat global climate change?

The [Singapore International Energy Week \(SIEW\)](#) is an annual platform for energy professionals, policymakers and commentators to discuss and share best practices and solutions within the global energy space. SIEW 2021 will be held in a hybrid format with both onsite and online components from the 25 - 29 October at Marina Bay Sands.

The Energy Market Authority (EMA) is a statutory board under the Ministry of Trade and Industry. Our main goals are to ensure a reliable and secure energy supply, promote effective competition in the energy market and develop a dynamic energy sector in Singapore. Through our work, the EMA seeks to forge a progressive energy landscape for sustained growth. Please visit www.ema.gov.sg for more information.
