

# DDM Accreditation Scheme

The accreditation scheme for the Digital Delivery Management track of the Built Environment is now open for application. This allows BE professionals to gain recognition for their skills, experience, and knowledge in Integrated Digital Delivery which is based on the national Skills Framework (SFw). This SkillsFuture initiative developed for the Singapore workforce to promote skills mastery and lifelong learning, is an integral component of the Construction Industry Transformation Map and the Real Estate Transformation Map (for the Facilities Management sub-sector). This accreditation can help individuals to structure their advancement in their career path based on recognition of the skills level attained progressively. At the moment, the accreditation scheme certifies at Tier 2 (Lead) and Tier 3 (Specialist). BE professionals with at least 2 years of relevant work experience should consider applying for accreditation. For more information, or to begin application, refer to [ddm.buildingsmartsingapore.org](http://ddm.buildingsmartsingapore.org).

BUILT ENVIRONMENT CAREERS

## DIGITAL DELIVERY MANAGEMENT

BUILD YOUR CAREER PROGRESSION  
THROUGH THE DDM ACCREDITATION  
SCHEME WITH THESE SIMPLE STEPS!
