

# AMENDMENTS TO FIRE CODE 2018

The Fire Code is a living document reviewed periodically by the SCDF. To-date there is a total of 8 batches of amendments to Fire Code 2018 issued to the construction industry. These proposed plans of fire safety works for new or existing buildings shall be subjected to the amendments depending on the issuance date and future dates stipulated in the SCDF circular.

It is imperative Qualified Persons (QP), architects, engineers, designers and site supervisors should be familiarised quickly with the Fire Code amendments to minimise gaps in its implementation. IES and ACES have jointly organised this webinar with the objective to provide a platform for industry practitioners to have better understanding on the relevant amendments to Fire Code 2018 to improve efficiency in fire safety design and implementation.

Time	Presentation and Topic by
2pm to 2.45pm	Presentation by: LTC Jeffrey Ng - Other Relevant Topics
2.45pm to 3.30PM	Presentation by: MAJ Lim Boon Hsing - Other Relevant Topics
3.30pm to 4.00pm	Presentation by: ER. Louis Hwang - Case Studies on Architectural and C&S topics
4.00pm to 4.30pm	Presentation by: Er. Choong Choon Guan - M&E Amendments 6 to 8
4.30pm to 5.00pm	Panel Discussion

**Date: 8 July 2021, Thursday**

**Time: 2pm to 5pm**

**Fees:**

**\$32.10 (IES Members / CIJC Members)**

**\$42.80 (Registry Subscribers)**

**\$53.50 (Non Members)**

*(Fees include 7%)*
