

Dear Partners,

SIA THINK TANK

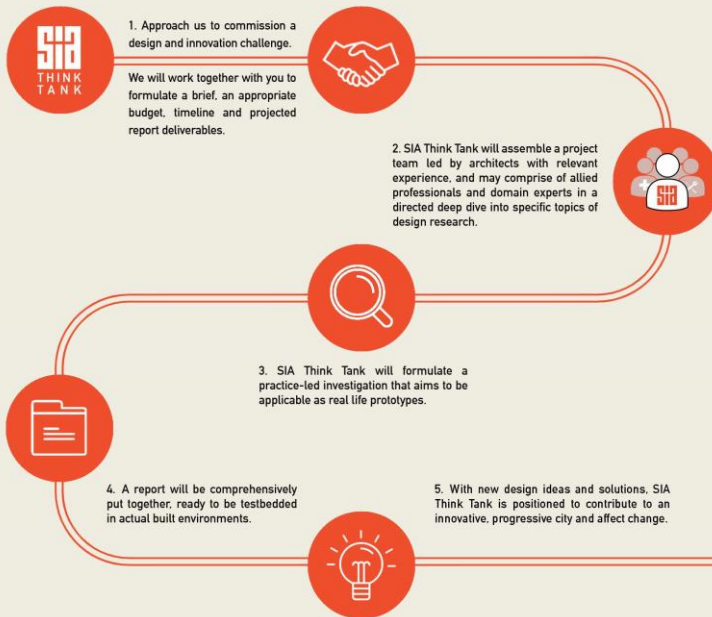

by the Singapore Institute of Architects

WHAT IS IT?

SIA Think Tank is a practice-led research task force of the Institute that champions design innovation and the building of domain knowledge expertise for Singapore Architects. With this platform, the Think Tank aims to offer design thought leadership and innovation across various topics through practical research and application.

We welcome all design challenges and through collaborations, look forward to the opportunity to testbed and prototype urban and spatial solutions for the commissioning party. The Think Tank spotlights Singapore Architects as original content creators and our ability to play an integral role in national design policy and space making in our shared built environment.

HOW IT WORKS

Whether you are a government agency, non-government organisation, private institution or company, we will be happy to hear your design challenges and provide design expertise to rethink and formulate better outcomes for you.

Interested parties can email us at thinktank@sia.org.sg
